Sofia, Bulgaria offers the best value for travellers when it comes to the common incidental costs while staying in a hotel, according to a cost comparison report released today by TripAdvisor, carried out across 48 destinations selected to be included in this study.

The results are taken from the third annual TripAdvisor TriIndex Room Service report, which compares the cost of hotel room service items in 48 popular destinations around the world. The study takes into account the cost of a one night stay in a four-star hotel, a club sandwich ordered through room service, the dry cleaning of one shirt as well as refreshments from the mini bar.

In Sofia, the combined cost of a night in a hotel, based on availability on TripAdvisor, along with room service comes to an average of S\$133.86 – more than four times cheaper than at the costliest destination, New York, where the average hotel price on TripAdvisor, plus room service amenities, totals S\$580.51.

“Hotel prices can vary a great deal across destinations – even when comparing like for like amenities – so it pays to shop around to find the best deal. Hotel room rates, for example, can vary between travel agents, so using the price comparison tool on TripAdvisor can be a great way to find and book a good deal,” commented TripAdvisor spokesperson, Jean Ow-Yeong.

#### Singapore revealed as eleventh priciest destination in the world

The 2015 TriIndex Room Service report places Singapore at eleventh place in the most expensive destinations league table, with New York, Zurich and London taking the top 3 spots. This is an improvement from last year’s results which saw Singapore taking the ninth position.
