Methodology

The 2024 Travelers' Choice Best of the Best Hotel Awards are determined based on the quality and quantity of traveller reviews and ratings posted on Tripadvisor over the 12-month period between January 1 and December 31, 2023, as well as an additional editorial process.

Tripadvisor is proud to serve a broad and diverse community of travellers from all over the world. As such, Tripadvisor reserves the right to determine the eligibility of any property, business, destination or point of interest listed on Tripadvisor for an award based on additional factors that reflect Tripadvisor corporate policies and values. For more details on Tripadvisor's awards policy, see [here](#).

Sustainable Methodology

Tripadvisor partnered with sustainability management company [BeCause](#) to collate data detailing hotels that had been certified by at least one of a number of [Global Sustainable Tourism Council](#) and [Travalyst](#) approved organisations between January 1, 2023 and December 31, 2023. Tripadvisor defined 70 sustainability terms and phrases such as "environmentally friendly", "refillable", "eco-tourism", and "waste reduction" and identified relevant reviews from the 12 month period. After ranking the hotels, Tripadvisor used digital listening tool [Brandwatch](#) to analyse approximately 23,954 Tripadvisor English-language reviews between January and December 2023 for certified hotels that not only mentioned sustainability, but also had a Tripadvisor bubble rating of 4 above. This allowed the identification of destinations in order of rank, starting with the destination with the highest percentage (%) of reviews discussing sustainability amongst all reviews of that destination. Please see the full methodology [here](#).
